

# SMART SENIOR WELLNESS

by **Smart Space**

More than an emergency button  
a complete 24/7 safety net

## Activity Patterns

Understand your family member's activity pattern and get an alert if it's out of the ordinary.

## Awareness

Make sure your loved one is getting up and about.

## Alerts

Be alerted if your loved one is wandering or leaving the house at odd hours.

## Integrated Pendants

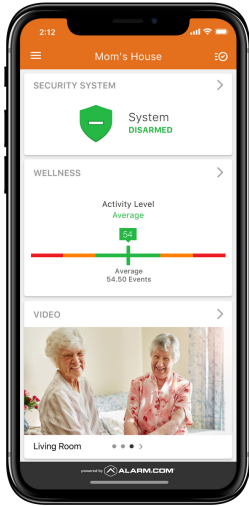

Wellness can also be paired with Personal Emergency Response (PERS) pendants.

## Security & Automation

Simplify daily routines with automated temperature, light and security settings.

# When to consider Wellness

- Your family members want to stay home as they age, but want the security of knowing someone is watching out for them.
- You worry that something has happened when your aging family member doesn't stay in touch.
- A family member has had a recent illness that requires some extra care, but can't afford expensive assisted living.
- You want a safety net for active and healthy aging family members

## Stay Safe

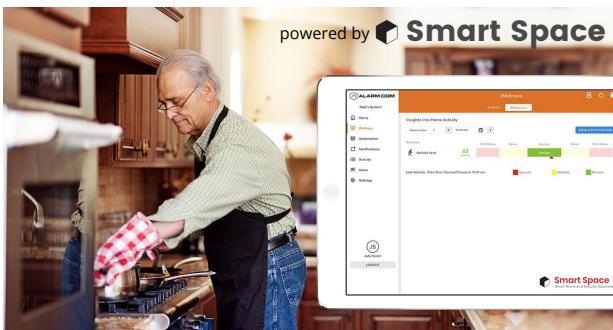

Wellness by Smart Space is coupled with the leading home security solution from Alarm.com. Get additional peace of mind with 24/7 emergency response for intrusion, fire and medical emergencies and have persistent awareness of what's going on at home.

## A Smart Solution for Independent Living

Protection for your loved one; assurance for you. The Wellness intuitive smartphone app from Smart Space, with real-time alerts, gives you a discreet, 24/7 connection that enables you to know about and respond to immediate needs quickly.

Wellness alerts you if there's a dangerous situation like an open door late at night, and provides the reassurance that a loved one is up and about during the daytime as expected.

## One Step Ahead of Emergencies

Many well being issues are hard to detect in their early stages. Smart Space can alert you to unexpected activity changes that may indicate a future emergency, giving you time to intervene.
